

# Metallurgia—Index to Volume 47

JANUARY—DECEMBER 1980

<b>A</b>			
Advanced technology in superalloy disc forging ...	581	Drop Forging, 10th International Convention ...	378
Aerospace boosts metalformers' workload ...	518	Drop forgers, British, "at-home" to delegates ...	234
Alloy, medium and high, p.m. steel products by H.I.P. ...	33	Design, Computer-aided, and manufacture of hot forging dies ...	24
Aluminium, developments in, powder metallurgy ...	458	Developments in aluminium powder metallurgy ...	458
Austempering — an old process with new potential ...	136	Developments in burner and electric-element technology ...	505
Automatic forging shop (Firth Brown) ...	352	Developments in fluidised-bed furnaces ...	182
<b>B</b>		Developments in the galvanising of steel ...	402
Bar cropping, machines, production systems and tooling for ...	646	Developments in non-destructive testing ...	407
The big car in a changing world ...	391	Developments in vacuum furnaces	119
BNF Metal Technology Centre celebrates its Diamond Jubilee ...	547	Duport Steel gears up to the forging market ...	257
Brass-stamping, wear of EDM, dies	4	<b>E</b>	
Brymbo boosts production of forging steels ...	374	Eaton's new case-hardening plant ...	145
Burner, developments in, and electric-element technology ...	505	EDM, Massey's machines ...	13
<b>C</b>		EDM, wear of spark-eroded, brass-stamping dies ...	4
Capenhurst, research and innovation at ...	591	Effect of EDM on material properties of die steels ...	356
Case-hardening, Eaton's new plant	145	Electrical safety of resistance-heated laboratory furnaces ...	376
Centrifugal shot casting of metal powders ...	465	Electron beams for vacuum metallurgical processes ...	554
Cold rolling mill, five stand tandem, for Russian steelworks ...	604	Electronics in the 80's — its role in furnace automation ...	599
Combustion package boosts heat treatment ...	530	Element, electric-, developments in burner and technology ...	505
Compact machine from Matchless	14	Energy conservation, Practical, in heat treating processes ...	572
Competition today/tomorrow (Comment) ...	303	Energy: conservation vs. total expenditure (Comment) ...	215
Computer-aided design and manufacture of hot forging dies ...	24	Energy, environment and engineering (D.F.R.A. work) ...	251
Continuous casting, Horizontal, of steel ...	80	Energy, Ezra's view (Comment) ...	351
Continuous casting machines for copper-base alloys ...	68	Energy Management Awards, Gas, 1980 ...	681
Continuous casting plant boosts production at Peglers ...	76	Engineering, energy, environment and ...	251
Contract testing solves the problems	412	Environment, Energy, and engineering ...	251
Control systems provide savings in fuel ...	496	European furnace and industrial heating equipment manufacturers meet in Britain ...	280
Copper-base alloys, Continuous casting machines for ...	68	Exhibition, <i>Furnaces, Refractories, Heat Treatment &amp; Fuel Economy</i> ...	488
Crying Wolff (Comment) ...	67	Extrusions, Mini—made-to-measure	194
Cupreous cure? (Comment) ...	175	Extrusion, modern, technology (symposium) ...	370
Current trends in the use of dense and insulating refractories ...	308	Ezra's energy view (Comment) ...	351
<b>D</b>		<b>F</b>	
Die-steels, effect of EDM on material properties of ...	356	Fibre-reinforced metal (Comment)	351
Dies, computer-aided design for hot forging ...	24	Firth Brown boosts production of precision forgings ...	352
Dies, heat treatment plant for tools and ...	438	Five-stand tandem cold rolling mill for Russian steelworks ...	604
Dies, wear of EDM brass stamping	4	Fluidised-bed furnaces, developments in ...	182
Drop forging: an optimistic assessment (Comment) ...	175	Forger fortified (Comment) ...	67
Drop Forging Research Association (D.F.R.A.) — aims and objectives	250	Forging across the world (Comment)	303
		Forging ahead with Spiat (Comment)	351
		Forging around the world (Comment)	391
		Forging, Drop, an optimistic assessment (Comment) ...	175
		Forging, Drop, 10th International Convention ...	378
		Forging equipment/news ...	264
		Forging, forging, forging (Comment)	215
		Forging, hot, computer-aided die design ...	24
		Forging industry, information and the ...	16
		Forging industry, robots in the ...	255
		Forging market, Duport Steel gears up to the ...	257
		Forging, Precision, discussed at Droitwich (NADFS Convention)	658
		Forging steels, Brymbo boosts production of ...	374
		Forging, superalloy disc, Advanced technology in ...	581
		Free (and fair?) trade (Comment)	67
		Fuel, control systems provide fuel savings ...	496
		Furnaces '80 Exhibition (Review)	642
		Fuel economy emphasised at Furnaces '80 (Exhibition review)	642
		Furnace automation, role of electronics ...	599
		Furnace control, Microprocessors and instrumentation in ...	662
		Furnace, Elements for heating ...	186
		Furnace, European, and industrial heating manufacturers meet in Britain ...	280
		Furnace furniture, high temperature alloys offer long life in ...	509
		Furnace technology for the 80's ...	483
		Furnace, Vacuum, technology ...	129
		Furnaces '80 in retrospect ...	633
		Furnaces '80 Symposium — Preview ...	436, 512
		Review ...	645
		Speakers ...	516
		Furnaces, electrical safety of resistance-heated laboratory ...	376
		Furnaces, fluidised-bed developments ...	182
		Furnaces, gas-fired, boost production for advanced lost-wax plant ...	609
		Furnaces, melting, on view at Furnaces '80 ...	494
		Furnaces, Vacuum, in production ...	176
		Further turn of the screw? (Comment) ...	351
		<b>G</b>	
		Galvanising, development in the, of steel ...	402
		Gas Energy Management Awards — 1980 ...	681
		Gas-fired furnaces boost production for advanced lost-wax plant ...	609
		Gas manufacture and use ...	188
		<b>H</b>	
		Have you got your priorities right? (Nickel scrap) ...	193
		Heat's on for Furnaces '80 (Comment) ...	431

Heaters boost auto part production	528	Nickel scrap (Have you got your Banquet, 1980 ... ..)	660	Shaw process technology at Precision Products (Cumberland Ltd.)	316
Heat treating processes, practical energy conservation in ... ..	572	Thirtieth Technical Convention ... ..	658	Some exhibitors at Mach 80 ... ..	146
Heat treatment plant for tools and dies ... ..	438	Non-destructive testing, developments in ... ..	407	Spark eroded, wear of (EDM) brass stamping dies ... ..	4
High temperature alloys offer long-life in furnace furniture ... ..	509			Splat, forging ahead with (Comment) ... ..	351
H.I.P. capacity, Expansion in, (H.I.P. Powder Metals Ltd.) ... ..	464	<b>P</b>		Springback in circular blanks ... ..	275
Horizontal continuous casting of steel ... ..	80	Peglers, continuous casting plant boosts production at ... ..	76	Stamping, brass, wear of EDM, dies technology in ... ..	4
Hot isostatic pressing, alloy steel p.m. products by ... ..	33	Plant, heat treatment, for tools and dies ... ..	438	Superalloy disc forging, advanced technology in ... ..	581
		Plant, modernisation of, increases capacity and quality ... ..	144	Surface treatment, Lasers in metal Symposium, thermal processing, takes a fresh look at energy conservation ... ..	512
<b>I</b>		Plant, welding of, and tools ... ..	364		
IMI Titanium, massive expansion plan ... ..	470	Powder metallurgical processes, recent developments in ... ..	452	<b>T</b>	
Information and the forging industry	16	Powder metallurgy ... ..	452	Tenth International Drop Forging Convention ... ..	216, 378
Instrumentation, Microprocessors and, in furnace control ... ..	662	Powder metallurgy, alloy steel products by H.I.P. ... ..	33	Tenth International Drop Forging Convention — Delegates visit UK forges ... ..	416
Ironbridge ten years on (Comment)	537	Powder metallurgy, plant/news ... ..	462	Tenth International Drop Forging Convention — Plenary Sessions, Part 1 ... ..	392
Is the outlook really so bleak? (Comment) ... ..	103	Powder metallurgy, research ... ..	461	Tenth International Drop Forging Convention — Plenary Sessions, Part 2 ... ..	444
		Practical energy conservation in heat treating processes ... ..	572	Testing, Contract, solves the problems ... ..	412
<b>K</b>		Precious metal refinery commissioned ... ..	43	Thermal processing symposium takes a fresh look at energy conservation ... ..	512
Keep fit (Comment) ... ..	67	Precision forging discussed at Droitwich (NADFS Convention) ... ..	658	Tools and dies, heat treatment plant for ... ..	438
		Precision forgings, Firth Brown boosts production of ... ..	352	Tools, welding of plant and ... ..	364
<b>L</b>		Precision Products (Cumberland Ltd.), Shaw process technology at Progress with cupreous cure (Comment) ... ..	215	Towards material conservation in aerospace (Comment) ... ..	431
Lasers in metal surface treatment ... ..	109				
Low thermal mass refractories predominate at Furnaces Exhibition	502	<b>Q</b>			
		Quenching large pieces ... ..	141		
<b>M</b>					
Machines, production systems and tooling for bar cropping ... ..	646	<b>R</b>			
Mach '80, Some exhibitors at ... ..	146	A rather large forging press (Comment) ... ..	431	<b>V</b>	
Massey's EDM machines ... ..	13	Recent developments in powder metallurgical processes ... ..	452	Vacuum furnaces, developments in	119
Matchless, compact machine from	14	Refinery, precious metal, commissioned ... ..	43	Vacuum furnaces in production ... ..	176
Mini extrusions — made-to-measure	194	Refractories ... ..	303	Vacuum furnace technology: newer applications and their influence on design ... ..	129
Medium and high alloy p.m. steel products by hot isostatic pressing	33	Refractories, application studies ... ..	331	Vacuum metallurgical processes, electron beams for ... ..	554
Melting furnaces on view at Furnaces '80 ... ..	494	Refractories, dense and insulating ... ..	308	Visit to Vickers ... ..	153
Metallurgia, the changing face of (Comment) ... ..	537	Refractories, gunning ... ..	326		
Metallurgia, profiles of journal staff	544	Research and innovation at Capenhurst ... ..	591	<b>W</b>	
Metallurgia's year (Comment) ... ..	3	Robots in the forging industry ... ..	255	Wear of spark-eroded (EDM) brass stamping dies ... ..	4
Microprocessors and instrumentation in furnace control ... ..	662			Welcome to delegates — Tenth International Drop Forging Convention ... ..	216
Modern extrusion technology ... ..	370	<b>S</b>		Welding of plant and tools ... ..	364
Modernisation of plant increases capacity and quality ... ..	144	Safety, electrical, of resistance-heated laboratory furnaces ... ..	376	Wellman's 75th ... ..	38
MTTA optimism (Comment) ... ..	215	Saffil plant comes on stream ... ..	323		
<b>N</b>					
National Association of Drop Forgers and Stampers (N.A.D.F.S.)—aims and objectives ... ..	217
